The Scientific American will be found a most useful journal to them. All the new discoveries in the science of chemistry are given in its columns, and the interests of the architect and carpenter are not overlooked; all the new inventions and discoveries appertaining to these pursuits being published from week to week. Useful and practical information pertaining to the interests of milwrights and mill-owners will be found published in the SCIENTIFIC AMERICAN, which information they cannot possibly obtain from any other source. Subjects in which planters and farmers are interested will be found discussed in the SCIENTIFIC AMERICAN; most of the improvements in agricultural implements being illustrated in its columns.

Romeo. Macome Co., Mich., Julys, 1850.

Messrs. J. N. Harris & Co.:

Gentlemen:—The confidence I have in Perry Davis'
Pain Killer as a remedy for Colds. Coughs. Burns
Sprains, and Rhenmatism, for the cure of which
have successfully used it, induces me to choerfully
recommend its virtues to others.

A few months ago I had recourse to it to destroy
a felon; although I had never heard of its being
used for that purpose; but having suffered intensely
from a former one, and having no other remedy at
hand, I applied the Pain Killer freely for about fifteen minutes at evening, and repeated the application very hriefly the next morning, which entirely
destroyed the felon, and increased my confidence in
the utility of the remedy.

Yours truly,
Minister of the Wesleyan Methodist Church.

wishes of your constituents, in the particular localities from which you come, I have considered it to be my duty, under that provision of the Constitution which requires of me, from time to time, to give information to the Legislature, and in compliance with the request of some valued friends of your honorable body, to make a few suggestions in regard to the condition of the State and of public affuirs. A revolutionary provisional government has been formed in Southern Kentucky, within the lines of the Confederate nrmies, embracing nearly one third of the counties in the State. Within this boundary no revenue can be collected, and the laws are set at defiance. Its success must depend upon the tri-

of life; their fences have been destroyed, their in Government bonds. atock and provisions taken, so that many can-not make a crop this year; add to this, that many persons have been frightened or drugged from their homes and suffering funilies. The laws are silent or cannot be executed. Universal gloom and distress pervade these regions. Families are divided and broken up, and each has its wrongs or its woes to relate. Starvation stares many in the face. In

They would gladly pay, if their property would bring anything like a reasonable price; but owing to the great reduction in the circulation of the banks from thirteen to five millions of dollars within a year or two cowing to the guernous war debt. year or two; owing to the enormous war debt which must be met by an increase of taxation. the destruction of property and of confidence. the withdrawal of the funds by cupitalists, and the consequent fall in prices, the great indebtedness of our people, and the opening of the courts, hankruptcy and rain store them in the face unless they get relief. I am free to cheerfully eo-operate with you in the passage f such relief measures as muy be consistent with the Constitution. To be just to the creditor and relieve the

debtor is the difficulty. It is a most perplex-lng question. As a general thing, the relief laws heretofore passed have proved disastrous to those whom they were intended to benefit. Especially have we a warning from the measures adopted in the old relief and anti-relief times in Kentucky; but the people cannot pay much more than their taxes now, much less their debts, without bankruptcy. I fear the sheriffs will resign if something is not done. I fear even resistance to the laws if the collection of debts is enforced by ruinous sucrifices of property at public sales. The ous sucrifices of property at public sales. The relations between the debtor creditor have greatly changed since the contracts were entered into by this horrible war. Much indebtedness has been incurred by the purchase of property here which has been sold in the South. Persons are trying to collect their debts there to meet engagements here. Henvy the contract of the sold in debts there to meet engagements bere. Heavy that 'no one was hurt,' or would be hurt, by losses will be sustained. Heavy taxes must the withdrawal of the Southern States. e met, and great sacrifices of property be the result, unless something cun be done for the sufferers.

What ought to be done-what can be done for this class consistent with reason, humani-ty, justice, and the constitution? It is the debtor class—the trading class, who incur all the risks of speculation—it is that class who, in a time of peace and prosperity, have been the life of trade—it is that enterprising class of our eitizens who have constantly contributed by their industry and liberality to individual, as well as to national wealth, who have been eaught in deht by the revolution. and need assistance. Shall their property, the hard earnings of years of toil, risk, and honest industry, be swept from them at half its value, and they, with their helpless fami-lies, turned out penniless upon the world? Are these men who have carried forward the progress of the country in its rapid advancement to power, to receive protection, or are they to he sacrificed to the cupidity and avariee of another class who do not work—who consume, but produce nothing—who add nothing to the wealth and little to the happiness of the country-who live by lending money at ten per cent. a year, and gloat ove the ill-gotten gains of two per cent. per month wrung from the earnings of honest industry? Shall the feast of the capitalist come, in exor bitant demands of interest submitted to and promised by the borrower, to save property from being sold at ruinous sacrifices? Shall the curnival of the miser come, who neither fights nor works, and who has hourded up hi usurious gains to take advantage of the distresses of the people at such a time as this? It is contrary to the spirit of our institutions for too large a portion of the property of the country to be owned by a few man. On the country to be owned by a few men. On the paid to the Captors.

ron the subject, I had hoped that this question every would have been answered previous to your last adjournment, in the passage of some con-stitutional relief measure, satisfactory to the people; but in this I was sadly disappointed; and had it not been that you were soon to meet again, and wishing to avoid the expense incurred in the call of another extra session of the Legislature, at a time when we should most rigidly economise, diminish our expenditures, and husband all our resources, much as I um opposed to relief laws under ordinary circumstances in a time of peace, I would have thought myself justified in calling you back

without delay to legislate upon this subject.
Whether a two-thirds valuation law, applied to personal, as to real estate, or a further suspension of the courts, or some other mode of relief, he the remedy, I forhear at this time to suggest, for the reason that a Treasury note hill is now pending before Congress, making paper money a legal tender for debts. [From the Cincinnati Engairer.] Expulsion of Bright.

Spenking of the expulsion of Senator Bright,

upon the charge of having written a letter to President Davis on the 1st of Murch, 1861, the Springfield Republican says:
"Our manufacturers of guns, powder, military equipments and stores, were equally involved, and up to the very moment when war actually broke upon the astonished country, were freely supplying the robels with the neans of destroying the Government, and without any companctions of conscience, or the least idea that they were engaged in treasonable work. We admit the force of these well-known facts, and confess that we are taught by them not to judge too rigidly the words or the conduct of any man previous to the outbreak of hostilities, which almost no one then believed would ever occur.

The Springfield Republican is one of the leading Administration prints in New England, and is politically opposed to Mr. Bright -n fact which makes its admission more important in this connection. It is a just answer to the contemptible pretext that was hunted up by the majority of the Senate to justify his expulsion. The Albany (N. Y.)

Argus and Atlas well says:

"Long after the 1st of March, the New England merchants were driving a busy trade

From theKnoxville (Tenn.) Register, Feb. 2.1 Whereabouts of Crittenden and His Rebels.

This officer now has his headquarters at Gainesboro', on the Cumberland river. From a member of General Carroll's brigade, who left there on 'Tuesday night last, we learn that the force there is perfectly organized, the camp in good order and in the receipt of ample supplies. The enemy have not crossed the river at Mill Spring, with the exception of small parties of skirmishers. They seem to be deterred by a well founded dread of a flank movement by our forces. A list of the killed and wounded on our side has been made out at headquarters, and we presume will shortly be published. It does not exceed three hundred, and it is now pretty well ascertained that the enemy's loss was much above that number.

Gainesboro'is the capital of Jackson county Tenn. It is situnted on the left bank of the Cumherlund river. It has a court-house and severul stores and dwelling. It is one hundred miles from the battle-field at Mill Spring, and twenty miles south of the Tennessee liue.

ANECDOTES OF THE CALIFORNIA FLOOD .-The California papers have many reports of hairbreadth escapes, among which we observe that the wife of a State Scantor was rescued by her husband carrying her some distance on his back, he wading waist-deep in n tor-rent. Among other characteristic unecdotes of the disuster, are the following amusing stories:

At one of our hotels yesterday morning At one of our hotels yesterday morning a hoader ealled for muckerel for breakfast, with the remark: "I am darned sure they were not drowned by the flood, but I don't feel so sure about beef and pork." He had been around town considerably, and had seen so many drowned cuttle and hogs lying around, that he concluded to be on the safe side.

"How high did the water get on your floor? we inquired of a resident of one of the more favored localities of the city. "Just high enough to take the starch out of my shirt-collar," said he. Gen. McClellan's plans, the Washington correspondent of the Springfield Republican says, have been revealed to a distinguished member of Congress, and ho don't like them. The same authority says that Ben Wade, chairman of the committee on the conduct of the war, is gloomey over the prospects, and that in endeavoring to get President Lincoln to look at our national troubles in a sober manner the other day, he became discouraged. Mr. Lincoln laughed at him, or told a pleasant story in reply to Wade's bad predictions, (so the story goes,) until the Ohio Senator drew up stiffly with, "Sir, you are not a mile from Tophet, and you are riding a Mr. Lincoln; "well, there is one consolation-I shall not have to part long from my Senatorial friends. FORTRESS MONROE, Feb. 11.

By the flag of truce we have the following particulars, through rebel sources, of the comolete success of Burnside's forces at Roanoko Island. The Island has been taken possession of by the Federals, and Commander Lynch's ed, whether by our shells or by the inhabi-tants is not certain. The first news of the de-Yankees had been allowed to land for the purpose of drawing them into a trap. The rebel force on the island is supposed to have been a little over three thousand effective fighting men. Gen. Wise was not present during the engagement. When the situation bears engagement. When the situation became dangerous he was removed to Norfolk. All the gunboats but one were taken, and that one escaped up a creek, and was probably also

One report at Norfolk says only 70, and another only 200 escaped from the island. Gen. Huger telegraphed to Richmond that only 60 on the island escaped. There appears to be no bright side of the story for the rebels.

The Richmond Examiner of this morning, in a leading editorial, says: The loss of an entire army on Roanoke Island is certainly the most paiaful event of the war. telligence by telegraph yesterday is fully con-lirmed. 2,500 brave troops, on an island in the sen, were exposed to all the force of Burnside's fleet. They resisted with courage; but when 15,000 men were landed against them, and their retreat being cutoff by the surround ing element they were forced to surrender. This

SECOND DISPATCH.

NORFOLK, Feb. 10.

A rumor has prevailed that Commodore Lynch's fleet of gunboats had been enpured. It is not regarded as true, but it is believed that all were burned by the Confederates to prevent their capture, with the exception of one, which was endeavoring to make its escape. The fleet went to Elizabeth city from Rounoke Island, and was probably burned at the former place.

THIRD DISPATCH.

NORFOLK, Feb. 10. Received in Richmond at Midnight .- A courier arrived berethis afternoon at 4 o'clock, and brought intelligence that Elizabeth city was burned this morning by the inhabitants. During the conflagration, the Federals landed a large force. All our gunboats but onc were captured by the enemy. Gcn. Wiso has not

yet arrived at Norfolk.

The following is the very latest—from to-day's Day Book:

"A courier arrived here yesterday afternoon, about 3 o'clock, from whom we gather the following information:

It is said that before our boats surrendered they were abandoned, and that their erews succeeded in making their escape. If so, we are at a loss to conjecture why the boats were not fired before being abandoned. The disaster te our little fleet is attributed to the fact that, having exhausted the supply of coal and aminunition, they proceeded to Elizabeth City for the purpose of obtaining a supply. Every effort was made to obtain coal, without success; nor, for the want thereof, could they return to the island and lend any

assistance whatever to the forces. 'All the details, as published, with reference to the capture of Roanoke Island are confirmed by the courier, who represents our loss at 300 killed and wounded, and that of the enemy at not less that 1,000. Great havoc was made among them while coming up the road leading to the fort. Our forces brought to bear upon them two 32 pounders, and at every fire their ranks were terribly thinned. Tho places of the fullen were, however, quickly filled. Park Point battery was manned by the Richmond Blues, and most nobly did they defend it.

" During the conflict they were attacked by a whole regiment of Zouaves, and though completely overpowered, they stood their ground bravely, nor did they yield a foot, till all, save seven, fell bleeding to the ground. There is good reason to believe that had Col. Henningsen, with his artillery, been on the island, we would not have been forced to surrender. The lack of field pieces was sorely felt, and had they been at hand, the enemy, perhaps never would have been able to have landed his forces. Henningson had orders, wo understand, to report at Roanoke Island, but, hy some misunderstanding, he mistook Elizabeth city for the place of destination. Capt Taylor, of this city, is represented as having distinguished himself.

"In addition to the above are many rumors we might give, but as they are nothing more than rumor, we prefer withholding them. Among them is one, however, worthy tice-that Gen Wise had been shot while in an ambulance, on his way to Norfolk. So far as we have been able to learn, we can only account for the statement by supposing that the name of the General was confounded with that of his son, who is reported among the killed. "It is reported that one regiment from

Massachusetts was badly cut up, but it is impossible to ascertain which of the fivo that were attached to the expedition. The news received to-day occasions great

excitement at Old Point. A steamer with official dispatches from Gen. Burnside is hourly expected. The prisoners captured number at least two thousand, and will be here in a All the Southern papers received are unan-

BEFORE TAKING THE AFTER TAKING THE ELIXIR. DR. WRIGHT'S CELEBRATED

REJUVENATING ELIXIR!!

Prepared on the strictest Pharmacoutical principles by one of the ablest Chemists of the uze.

This is altogether a new medicine, the result of modern discoveries in the vegetable kinglom, being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems published by accomplished quacks to the sufering. Dr. Wright, well knowing the deception practised upon the uninitiated, left it his duty at once to have this Elixir tested by the whole Medical Faculty, who, without even one dissenting voice, have given in their adherence to its perfect and undivided control over the whole physical man when his frame has been reduced, and when all other medicines known to the Pharmacopolia have been tried in vain. Long thought, years of patient investigation, and a nil despermatum determination, have ere wised the Doctor's efforts, and he now offers the Elixir to suffering humanity as the only thing that can cure the following diseases—namels:

disenses—namelai

And, in fact, all the concomitants of u nervous and
debilitated state of the system.

As a Stimulant, It is quite different from alcoholie preparations. It is not subject to reactions in any shape; it continues to exert its influence, gradually and efficiently, as long as the least ne resity exists for its presence.

As a Female Medicine,

It is equally powerfur and effective, and restores the equilibrium somer and saferthan all the other medicines which for years have flooded the market, and which are only inturious, in place of assisting or renorating the constitution; for a very good reason too, that they are only made from the edusions of mindsignorant of the Medical profession altogether.

No Minerals:

Dr. Wright thinks it well to stake his professional character on the fact, that no minerals whatever form the least component parts of the ingredients in lis Rejuvenating Elixir—well knowing what ruin has been entailed on the community by opium and Generally, to the debilitated, Dr. Wright would say, Never despair. Na matter how worn down you may he—no matter how weak you are—no matter what the cause may have been—forsake at once whatever hashed you to depurt from Hygienic principles—take

Rejuvenating Elixir. And you will soon find yourself a new man—a pride instead of the reverse, to your friends, and a healthy, sound, and worthy member of the human family.
